

## RACE RESULTS

ICI  
REDCAR HALF MARATHON  
SUNDAY 8TH MARCH 1998

the 1990s, the number of people in the world who are under 15 years of age is expected to increase from 1.1 billion to 1.4 billion (United Nations 1994).

There are a number of reasons why the number of children in the world is increasing. One of the main reasons is that the number of children who are surviving to adulthood is increasing. This is due to a number of factors, including improved medical care, better nutrition, and a decrease in child mortality.

Another reason why the number of children in the world is increasing is that the number of children who are being born is increasing. This is due to a number of factors, including a decrease in the age at which women are having children, and an increase in the number of children who are being born to women who are already having children.

The number of children in the world is increasing, and this is a cause for concern. There are a number of reasons why this is a cause for concern, including the fact that the number of children who are living in poverty is increasing, and the number of children who are being abused is increasing.

There are a number of things that can be done to help reduce the number of children in the world. One of the most important things that can be done is to improve the health care of children. This can be done by providing better medical care, and by ensuring that children have access to clean water and sanitation.

Another thing that can be done to help reduce the number of children in the world is to improve the nutrition of children. This can be done by providing better food, and by ensuring that children have access to clean water and sanitation.

There are a number of other things that can be done to help reduce the number of children in the world, including providing better education, and ensuring that children have access to clean water and sanitation.

The number of children in the world is increasing, and this is a cause for concern. There are a number of things that can be done to help reduce the number of children in the world, including improving the health care of children, improving the nutrition of children, and providing better education.

## 2. THE NUMBER OF CHILDREN IN THE WORLD

The number of children in the world is increasing, and this is a cause for concern. There are a number of reasons why this is a cause for concern, including the fact that the number of children who are living in poverty is increasing, and the number of children who are being abused is increasing.

There are a number of things that can be done to help reduce the number of children in the world. One of the most important things that can be done is to improve the health care of children. This can be done by providing better medical care, and by ensuring that children have access to clean water and sanitation.

Another thing that can be done to help reduce the number of children in the world is to improve the nutrition of children. This can be done by providing better food, and by ensuring that children have access to clean water and sanitation.

There are a number of other things that can be done to help reduce the number of children in the world, including providing better education, and ensuring that children have access to clean water and sanitation.

The number of children in the world is increasing, and this is a cause for concern. There are a number of things that can be done to help reduce the number of children in the world, including improving the health care of children, improving the nutrition of children, and providing better education.

## 3. THE NUMBER OF CHILDREN IN THE WORLD

The number of children in the world is increasing, and this is a cause for concern. There are a number of reasons why this is a cause for concern, including the fact that the number of children who are living in poverty is increasing, and the number of children who are being abused is increasing.

There are a number of things that can be done to help reduce the number of children in the world. One of the most important things that can be done is to improve the health care of children. This can be done by providing better medical care, and by ensuring that children have access to clean water and sanitation.

## ICI REDCAR HALF MARATHON

SUNDAY 8TH MARCH 1998

Many thanks for supporting the 1998 ICI Redcar Half Marathon.

These results are sent to every person who entered the event whether they ran or not.

If you did run I hope the attached results prove of interest to you and provide a record of your performance.

As with most events there were a few (three actually) hiccups for which we apologise.

- i) At the presentation some times were announced one minute faster than they actually were.

The attached results are however altered and are the correct times.

- ii) Our apologies to Harry Gamble-Thompson who was omitted from the Over 60's prize categories due to the computer identifying him as V40.

Harry was in fact the first 0/60 to finish.

- iii) Morpeth Harriers were announced as the ladies team winners.

It is worth noting however that the mistake arose as a result of one of the Jarrow scoring team who was a late entrant not providing the name of their club.

We checked the situation through and consulted with the referee who has approved the alteration to the team result.

Our apologies to those affected by these hiccups.

As you may be aware our plans were to introduce a faster, more sheltered two lap course for this years event.

This was not possible due to the closure of the road bridge at the far side of Locke Park and the resulting potential for traffic congestion.

We do intend to introduce this change next year if possible.

If you have any comments regarding the proposed change please do not hesitate to let us know. Direct them to:-
